

Lung-Chi Chen, Ph.D.

Professor

Department of Environmental Medicine, NYU School of Medicine, NY, NY USA

E-mail: lung-chi.chen@nyulangone.org

URL: <https://med.nyu.edu/faculty/lung-chi-chen>

Phone: 845-731-3560

Research Interests

nanoparticle toxicity and functional utilization, role of health disparity in air pollution-induced cardiopulmonary diseases, gene-environment interactions in environmentally induced diseases, effects of particulate air pollution in the pathogenesis of atherosclerosis, mechanisms of air pollution induced asthma, pollutant-induced alterations in biological response modifiers and associated membrane receptors, signal transduction pathways associated with oxidative stress

Work Experience

~ present

Professor

Department of Environmental Medicine, NYU School of Medicine, NY,
NY USA
